ABOUT

I am a dedicated and passionate software geek with a solid foundation in data structures and algorithms. My journey in the world of software development has led me to explore a diverse range of areas, including web development and machine learning.

EDUCATION

NIIT University , Neermrana
- B.tech CSE (AI) Grade- 7.3
- *2020 - present*

Rishikul Vidyapeeth, Sonipat
- Class 12 (PCM- 93%)
- *2020*

SKILLS

Programming	Java & Python
Web Devlopment	Html , Css , Javascript , React js , Node js , Express , MongoDB , TypeScript , Next js , Bootstrap , Angular
Machine Learning	ML Algorithms , Numpy , Pandas , Sckit-Learn , Matplotlib , Tenserflow
Other	Github , Git (Version Control) , API Development

PROJECTS

Grocery Portal with payment Gateway **4/2023 - 6/2023**
- Developed a full-stack grocery shopping portal with a secure payment gateway using the MERN stack.
- The project aimed to provide users with a seamless online shopping experience for groceries, including secure payment processing.
- Technologies Used: React.js , Node.js , Express , MongoDB , Bootstrap

DALL-E AI Clone **6/2023 - 7/2023**
- Created a Dalle-e clone , an AI-based image generation model inspired by OpenAI's DALL-E.
- By integrating the OpenAI API with MERN stack, enabling image generation based on textual descriptions.
- Technologies Used: React.js , Node.js , Express , MongoDB , Tailwind , Cloudinary

Diabetes Prediction Web App using ML **6/2023 - 7/2023**
- Built a machine learning-based diabetes prediction model using Python.
- The project aimed to accurately predict the likelihood of an individual developing diabetes based on various health factors and medical indicators.
- Technologies Used: Python , Numpy , Pandas , Pickel

CERTIFICATES

- The Complete 2023 Web Development Bootcamp
- Python Libraries for Machine Learning
